Hocking To Visit The Orient

Alfred Hocking, the manager and president of the Honolulu Brewing Company, will leave on October 19 for Shanghai where he will look over the grounds for a new brewery.

Mr. Hocking stated this morning that he did not as yet know where the brewery would be built. Three places are in view, Shanghai, Hankow and Hongkong. He goes to choose a site and incorporate a company.

Some time ago Louis Schwelzer visited China on the business of the new company and while there tested water and made other examinations which are necessary. His report was favorable and now Mr. Hocking goes to decide upon the site and the first plans of the new company.

When approached this morning Mr. Hocking said: "You will have to come to me after my return for I do not know exactly what will be the outcome of my trip. It is made on business of the company and if everything is satisfactory I shall choose the ground, purchase it and incorporate a new company. I shall go alone."

A brewery in the Orient has been talked of for a number of years and has been looked upon by men in that business very favorably. There is no brewery there and all beer must be imported. The field is large and realizing all this a new company will be formed. It is understood that several members of the local company are to be heavily interested in the new venture.

DE BOLT HAS A NEW PUZZLE

Judge De Bolt this morning again tackled the question of the age of Mome Yamane, the Japanese girl who recently got married and whose father claims that she is only 14 years of age and therefore not old enough to marry.

It appeared that the girl and her father do not agree as to her age.

An affidavit filed by J. W. Cathcart for Mome sets forth that she is over 18 years of age and therefore quite old enough to select a life partner and start a happy home. The father, however, declares that she is only 14 and altogether too young to think of such things as happy homes, except under parental roofs.

Judge De Bolt placed the girl under temporary guardianship, pending a decision as to whether she is old enough to leave her father or not. In the meantime the judge has dropped the question of "How Old is Ann?" and is deeply studying a new one,—"How Old is Mome?"
